Our clients

Starred hotels & service apartments worldwide

► Materials: solid wood & veneer

Imported from North America, Africa, Russia, etc. Kiln dried with guaranteed quality.
We can do fire-rated natural wood veneers upon request

Materials: laminate brands

Wilsonart and Formica are two brands we recommend for most projects as per their durability in public commercial spaces. We have more than 5000 restaurants furnished with laminate top tables during the past 10 years. The performance is excellent against heavy sanitizing.

Materials: laminate brands

We do polyurethane coating which is dampproof, scratch resistant and hold strong against discoloration. We have dust-free facilities for high gloss paintings.

COLORWAY COATINGS

We also use water base paint from Ashley supplier in China for products emphasizing natural wood grains, rustic look, antique glazing, etc.

► Materials / Upholstery

Rubber band
